Dear Bill:

Wanted to drop you a quick note of thanks for your efforts in overseeing the recent build-out of our space at 955 National Parkway.

The project was completed timely and with minimal inconvenience. You and your staff were very flexible in scheduling activities as to not adversely impact the day to day operations that were in place during construction. I always felt the foreman had a good handle on what was going on and kept me informed every step of the way.

I hope we have an opportunity to work with Woodrow again when we're ready to complete the build-out of our remaining space.

Thanks again!
