Northbrook, IL 60062

Attention: Todd Nelson

Dear Todd,

DSC Logistics, Inc., and Design Direction would like to commend your company for your fine performance as general contractor for the expansion of DSC's National Service Center in Des Plaines, Illinois.

You and Jim Nolan worked conscientiously to provide solutions tailored to our changing needs. Bill Braddock was meticulous in his attention to detail. Subcontractors were well coordinated, and the work area was always clean and neat.

Although the project schedule changed completely from the original calendar, your company was ready when we were. There were no "down days" or gaps between the trades once construction was underway.

We will not hesitate to use WDI again, and highly recommend you to future clients.

On behalf of the people at DSC and myself, thank you very much!
