Dear Todd:

Congratulations on doing a great job on our new medical office in Mokena! We are pleased with the number of positive comments we have received on our new space. Todd, your personal attention to the details was greatly appreciated. Your Superintendent John Moore and his dedicated crew worked hard to bring the project in on time, even with the changes that occurred during the project. The quality was good and the punch-list was short for a project of this size.

The staff at Woodrow, especially Jim Nolan, was friendly, courteous, competent and professional. The level of personal attention shown was beyond our expectations. We have recommended your company to our colleagues in the industry. We will call Woodrow Development the next time we need a contractor.
