

To Whom It May Concern:

Woodrow Development has provided construction services to The Hyatt Deerfield Campus since November, 1993. The services included painting and carpeting smaller spaces, construction of raw space, and price estimating for lease transactions. The service has been prompt and of very high quality. The construction estimates were essential to our leasing approximately 150,000 sq. ft. within 9 months, and for successfully completing approximately 25 lease transactions.

I have recommended Woodrow to my associates, and feel confident that they will continue their excellent work in the future.
