Dear Todd,

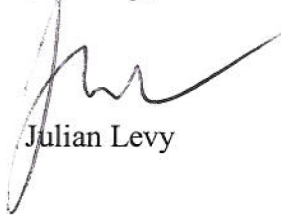

We wish to compliment you and your organization for the excellent services we received and all your help in completing our new office construction in a timely matter.

The attention and timely meetings with weekly up-dates conducted by Bill Braddock were very informative and relieved much anxiety during this construction period.

The leadership of Bill Braddock was untiring and in my opinion went beyond what we expected.

Thanks to you and your staff for all that was done in our behalf.

Sincerely,

Julian Levy
