Dear Bill,

I want to thank you and your team for the excellent job you did on the construction of our newest 3,235 square foot office at Deerfield Corporate Center.

I recommend Woodrow Development as an excellent contractor and would like to acknowledge your outstanding work while building our new office. Our project was completed on budget and on time on an extremely short time schedule. Woodrow consistently went above and beyond to get our project done on time.

It was a pleasure working with your team as all aspects of the construction went very well including the communication. We are thrilled with our new office and the quality of the workmanship.

Sincerely,

John Murtha
