Dear Todd,

Just a note to say thank you for all your help in making our relocation to Suite 200 such a great success. For working with us on budget, offering excellent suggestions for value engineering, managing construction efficiently, coordinating flawlessly with our vendors, getting the work done on time and at the agreed cost, and quickly getting everything 100% wrapped up at the end, I commed you. In short, you are a professional, always helpful, and with a smile...it was truly a pleasure working you.

Sincerely,

Luis Cadalzo
