Dear Todd:

We would like to take this opportunity to commend you and your staff on a job well done in preparing our space at 2215 Sanders Road in Northbrook.

WDI stayed focused on the important issues to help us meet our occupancy date. You and your subcontractors generated some creative ideas along the way and helped make our space a pleasant place to work.

Everyone in your charge performed in a neat, professional manner. We were also quite impressed with the way changes were handled. Todd, you didn't miss a beat. The quality and standards you demand show in what you deliver.

We would gladly recommend WDI for other construction jobs in the future.

Sincerely,

George M. Gogola
