To Whom It May Concern:
•

The Woodrow Development Corporation was responsible for the construction of our business office located at 205 West Grand, Bensenville, Illinois. We have been at that location since October 31, 1992.

The work was done exactly to our specifications and done in a very professional manner. We found them to be very helpful and suggestions they made to us to be very useful in the design of our office.

Sincerely,

David Everett
